- **Frontend:** Responsive UI Development with HTML, CSS, JavaScript
- **Practices:** Git and GitHub Version Control, Data Structures and Algorithms

PROJECTS

Hybrid Transfer Learning and Broad Learning System for Mask Detection Dec 2025 - Apr 2026

Python, Django, OpenCV, TensorFlow, Keras, Deep Learning

- Built a Django web application that lets users upload an image, detects faces with OpenCV and classifies each as Mask or No Mask using a transfer learning based deep learning model
- Implemented backend logic to serve model predictions and render bounding boxes and labels back to the user, integrating an AI/ML model behind a web application

TasteHub - Food Ordering Web Application

Python, Django, SQLite3, HTML, CSS

- Developed a Django web application for browsing food menus and placing orders, with SQLite3 integration, views and dynamic HTML rendering
- Deployed the application online on Render

EXPERIENCE

Software Development Intern Jan 2025 - Mar 2025

Kodnest Technologies, Bengaluru, Karnataka, India

- Gained practical, industry-mentored experience in Java, MySQL, frontend technologies and manual testing while contributing to real-world project work
- Collaborated with engineers to understand requirements and deliver assigned tasks

CERTIFICATIONS

- Artificial Intelligence: Concepts and Techniques, NPTEL (Oct 2025)
- Ethical Hacking, NPTEL (Oct 2025)
